36" (914.4mm) USB 2.0 Extension Type A

Thorlabs offers these highly popular, durable USB 2.0 cable extensions. These cables are well built with a USB A male connector on one end with a USB A female connector on the other end. This setup allows any USB cable with type A ends to be extended.

Features

- Hi-Speed 480Mbps transmission[1]
- USB Version 2.0
- USB Certified Cable
- One male and one female type A end

Component Specifications

- Black Jacket
- 28 AWG Signal Pair Conductors (D+, D-)
- 24 AWG Power Pair Conductors (V+, Gnd)
- -40°C to +85°C Operating Temperature

1. This represents a maximum speed. The actual speed will depend on the system in which the cable is used. USB 2.0 specification limits the length of a cable for full-speed devices to 5 meters; low-speed devices to 3 meters.
